

Steps to translate the CDS view metadata extension texts:

- Launch transaction SE63.
- Select option Short Text -> 00 Meta Objects -> TLOG Lockable Logical Object (Meta).
- In the Object Type field, enter DDLX.

Object

Object Type: DDLX

Object Name: ZC_OTC_NFM_UPLOAD 06

Translation

Source Language: deDE German

Target Language: enUS English

Edit Source/Target Language

- In the Object Name field, enter the CDS view name followed by an asterisk.
- Choose option F4 Possible Entries. The Restrict Selection Quantity dialog box pops up.
- Choose option Continue (Enter).
- Select the first object that ends with 02.
- Select the source and target languages.
- Choose option Edit.

TLGS (ZZ) enUS -> deDE: DDLXZC_OTC_NFM_UPLOAD 06
